**REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED  
FINANCIAL INFORMATION**

To the General Assembly of Coca-Cola İçecek A.Ş.

*Introduction*

We have reviewed the accompanying condensed consolidated statement of financial position of Coca-Cola İçecek A.Ş. (the "Company") and its subsidiaries (collectively referred as the "Group") as at 30 June 2024 and the related condensed consolidated statements of profit or loss, other comprehensive income, changes in equity and cash flows for the six-month period then ended. The management of the Group is responsible for the preparation and fair presentation of this interim condensed consolidated financial information in accordance with Turkish Accounting Standard 34 ("TAS 34") "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

*Scope of review*

We conducted our review in accordance with the Standard on Review Engagements ("SRE") 2410, "Review of interim financial information performed by the independent auditor of the entity". A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and the objective of which is to express an opinion on the consolidated financial statements. Consequently, a review on the interim condensed consolidated financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

*Conclusion*

Based on our review, nothing has come to our attention that causes us to conclude that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with TAS 34.

#### 1. CORPORATE INFORMATION and NATURE OF ACTIVITIES (continued)

##### Economic Conditions and Risk Factors of Subsidiaries and Joint Ventures

The countries, in which certain subsidiaries and joint ventures operate, have undergone substantial political and economic changes in recent years. Uncertainties regarding the political, legal, tax and/or regulatory environment, including the potential for adverse changes in any of these factors, could significantly affect the subsidiaries’ and joint ventures ability to operate commercially. Group Management closely monitors uncertainties and adverse changes to minimize the probable effects of such changes.

In this context, Risk Detection Committee; which was established under the arrangements, terms and principles of Turkish Commercial Code, Capital Market Legislation and CMB’s “Corporate Governance Principles” assess, manage and report Group risks. Some of the Group priority risks are defined as political instability and security, cyber security, exchange rate volatility, sustainable talent capability, corporate reputation, water, and environmental impact of packaging, changing consumer preferences, discriminatory tax and regulations, channel mix shift, economic slowdown, law and order and industrial relations. Group does not expect any adverse effect on the business related to any significant regulatory changes and/or legal arrangements by the authorities. All compliance efforts are in place and there is no legal dispute that may adversely affect the business.

##### Seasonality of Operations

Sparkling beverages consumption is seasonal, typically resulting in higher demand during the summer season and accordingly the seasonality effects are reflected in the figures. Therefore, the results of operations for the six months ended June 30, 2024, do not automatically constitute an indicator for the results to be expected for the overall fiscal year.

##### Average Number of Employees

Category-based average number of employees working during the period is as follows (Joint ventures are considered with full numbers for June 30, 2024, and December 31, 2023).

	June 30, 2024	December 31, 2023
Blue-collar	4.611	4.568

## 2. BASIS OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENT PRESENTATION

### Basis of Preparation of Financial Statements

#### Statement of Compliance with TFRS

The Group has prepared its condensed consolidated financial statements for the interim period ended June 30 2024, in the scope of the CMB’s “Communiqué on Financial Reporting in Capital Market” Numbered II-14.1 (Communiqué), published in the Official Gazette dated June 13, 2013 and numbered 28676, , and the announcements explaining this communiqué, TAS 34, “Interim Financial Reporting”. The interim condensed consolidated financial statements and explanatory notes are presented using the compulsory standard formats as published by the Communiqué. The entities are allowed to prepare a complete or condensed set of interim financial statements in accordance with TAS 34. In this respect, the Group has preferred to prepare condensed consolidated financial statements in the interim periods.

In addition, the consolidated financial statements are presented in accordance with the specified format in “TFRS Taxonomy Announcement”, issued on 15 October 2022 by the POA, and “the Financial Statements Examples and Guidelines for Use”, which is published by the Capital Markets Board of Türkiye.

CCI and its subsidiaries, which operate in Türkiye, keep their accounting books and their statutory financial statements in Turkish Lira (“TL”) in accordance with the regulations on accounting and reporting framework and accounting standards promulgated by the CMB, Turkish Commercial Code (“TCC”) and Tax Legislation and the Uniform Chart of Accounts which is issued by the Ministry of Finance. The foreign subsidiaries keep their accounting books and statutory financial statements in their local currencies and in accordance with the rules and regulations of the countries in which they operate.

The interim condensed consolidated financial statements have been prepared from the statutory financial statements of Group’s subsidiaries’ and joint ventures and presented in TL in accordance with Turkish Financial Reporting Standards (“TFRS”) as adopted by the Public Oversight Accounting and Auditing Standards (“POA”) and CMB with certain adjustments and reclassifications for the purpose of fair presentation. Such adjustments are primarily related to application of consolidation accounting, accounting for business combinations, accounting for deferred taxes on temporary differences, accounting for employee termination benefits on an actuarial basis and accruals for various expenses. Except for the financial assets carried from their fair values and assets and liabilities included in Business Combination application, consolidated financial statements are prepared on a historical cost basis.

### Summary of Significant Accounting Policies and Changes

As of 30 June 2024, interim condensed consolidated financial statements have been prepared by applying the accounting policies that are consistent with the accounting policies applied during the preparation of the consolidated financial statements for the year ended 31 December 2023, except for the new standards and TFRYK interpretations summarized below.

Interim condensed consolidated financial statements do not contain all the explanations and footnotes that are required to be included in the year-end consolidated financial statements. Therefore, these interim condensed consolidated financial statements should be evaluated together with the consolidated financial statements for the year ended 31 December 2023.

## 2. BASIS OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

### Financial Reporting in High-Inflation Economies

Based on the announcement made by the POA on 23 November 2023 and the "Implementation Guide on Financial Reporting in Economies with High Inflation", the Group prepared its condensed consolidated financial statements for the interim period dated 30 June 2024 and ending on the same date by applying TAS 29 "Financial Reporting in Economies with High Inflation". In accordance with the said standard, financial statements prepared based on the currency of a hyperinflationary economy are prepared in the purchasing power of this currency at the balance sheet date, and comparative information is expressed in terms of the current measurement unit at the end of the reporting period for the purpose of comparison of previous period financial statements. For this reason, the Group has presented its consolidated financial statements as of 31 December 2023 on the purchasing power basis as of 30 June 2024.

Based on the CMB's decision dated 28 December 2023 and numbered 81/1820, issuers and capital market institutions subject to financial reporting regulations applying Turkish Accounting/Financial Reporting Standards will apply inflation accounting by applying the provisions of TAS 29, starting from their annual financial reports for the accounting periods ending as of December 31, 2023.

The adjustments made in accordance with TAS 29 were made using the correction coefficient obtained from the Consumer Price Index in Türkiye ("CPI") published by the Turkish Statistical Institute ("TSI"). As of June 30, 2024, the indices and correction coefficients used in the correction of consolidated financial statements are as follows:

Date	Index	Coefficient	Three Year Compound Interest Rate
30 June 2024	2.319,29	1,00000	324%
31 December 2023	1.859,38	1,24735	268%
30 June 2023	1.351,59	1,71597	190%

The main elements of the Company's adjustment for financial reporting purposes in high-inflation economies are as follows:

- Current period financial statements prepared in TL are expressed with the purchasing power of money valid at the balance sheet date, and the amounts from previous reporting periods are expressed by correcting the purchasing power of money at the last balance sheet date.
- Monetary assets and liabilities are not adjusted as they are currently expressed with current purchasing power at the balance sheet date. In cases where the inflation-adjusted values of non-monetary items exceed the recoverable amount or net realizable value, the provisions of TAS 36 and TAS 2 were applied, respectively.
- Non-monetary assets and liabilities and equity items that are not expressed in current purchasing power at the balance sheet date have been corrected using the relevant correction coefficients.
- All items included in the income statements and other comprehensive income statements, except cost of sales, depreciation expense, profit/loss on asset sales, have been adjusted using the relevant monthly adjustment coefficients. Cost of sales, depreciation expense, asset sales profit/loss items have been recalculated on the basis of adjusted balance sheet items using correction coefficients.
- All items in the statement of cash flows are expressed in the unit of measurement valid at the end of the reporting period
- The effect of inflation on the Company's net monetary asset position in the current period is recorded in the net monetary position loss account in the income statement.

Comparative Figures:

- The relevant figures for the previous reporting period are rearranged by applying the general price index so that comparative financial statements are presented in the unit of measurement valid at the end of the reporting period. Information disclosed for previous periods is also presented in the measurement unit valid at the end of the reporting period.

### New and Amended Turkish Financial Reporting Standards

- a) *Standards, amendments, and interpretations applicable as of 30 June 2024:*
- **Amendment to TAS 1 – Non-current liabilities with covenants;** effective from annual periods beginning on or after 1 January 2024. These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments also aim to improve information an entity provides related to liabilities subject to these conditions.
  - **Amendment to TFRS 16 – Leases on sale and leaseback;** effective from annual periods beginning on or after 1 January 2024. These amendments include requirements for sale and leaseback transactions in TFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.
  - **Amendments to TAS 7 and TFRS 7 on Supplier finance arrangements;** effective from annual periods beginning on or after 1 January 2024. These amendments require disclosures to enhance the transparency of supplier finance arrangements and their effects on a company’s liabilities, cash flows and exposure to liquidity risk. The disclosure requirements are the IASB’s response to investors’ concerns that some companies’ supplier finance arrangements are not sufficiently visible, hindering investors’ analysis.
  - **TFRS S1, ‘General requirements for disclosure of sustainability-related financial information;** effective from annual periods beginning on or after 1 January 2024. This standard includes the core framework for the disclosure of material information about sustainability-related risks and opportunities across an entity’s value chain.
  - **TFRS S2, ‘Climate-related disclosures’;** effective from annual periods beginning on or after 1 January 2024. This is the first thematic standard issued that sets out requirements for entities to disclose information about climate-related risks and opportunities.
- b) *Standards, amendments, and interpretations that are issued but not effective as of 30 June 2024:*  
Group has not implemented below standards and has not implemented the revisions and interpretations which are for existing standards.
- **IFRS 17, ‘Insurance Contracts’;** effective for annual reporting periods beginning on or after January 1, 2023. This standard replaces IFRS 4, which currently allows a wide range of applications. IFRS 17 will fundamentally change the accounting of all entities that issue insurance contracts and investment contracts with discretionary participation features.
  - **Amendments to TAS 21 - Lack of Exchangeability;** effective from annual periods beginning on or after 1 January 2025. An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations.
  - **Amendment to TFRS 9 and TFRS 7 - Classification and Measurement of Financial Instruments;** effective from annual reporting periods beginning on or after 1 January 2026 ( early adoption is available) These amendments:
    - clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
    - clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
    - add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and
    - make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).
  - **TFRS 18 Presentation and Disclosure in Financial Statements;**effective from annual periods beginning on or after 1 January 2027. This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in TFRS 18 relate to:
    - the structure of the statement of profit or loss;
    - required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity’s financial statements (that is, management defined performance measures); and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.
  - **TFRS 19 Subsidiaries without Public Accountability;** Disclosures; effective from annual periods beginning on or after 1 January 2027. Earlier application is permitted. This new standard works alongside other TFRS Accounting Standards. An eligible subsidiary applies the requirements in other TFRS Accounting Standards except for the disclosure requirements and instead applies the reduced disclosure requirements in TFRS 19. TFRS 19’s reduced disclosure requirements balance the information needs of the users of eligible subsidiaries’ financial statements with cost savings for preparers. TFRS 19 is a voluntary standard for eligible subsidiaries. A subsidiary is eligible if:
    - it does not have public accountability; and
    - it has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with TFRS Accounting Standards.

These changes are not expected to have a significant impact on the Group’s financial position and performance.

**Estimates, Assumptions and Judgements Used**

For the condensed consolidated interim financial statements, as of June 30, 2024, Group management has to make key assumptions concerning the future and other key sources of estimation uncertainty on the balance sheet date that have significant risks of causing a material adjustment to the carrying amounts of assets and liabilities in the preparation of condensed consolidated financial statements. Actual results can be different from estimations. These estimations are reviewed at each balance sheet date; required corrections are made and reflected in the results of operations of the related period. The key assumptions concerning the future and other key resources of estimation at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and the significant judgments (apart from those involving estimations) with the most significant effect on amounts recognized in the financial statements are consistent with the assumptions and estimations made for the year ended December 31, 2023, except for the necessary considerations made for income taxes.

#### 15. GOVERNMENT INCENTIVES

The Group's earnings from investments tied to an incentive certificate are subject to corporate tax at discounted rates, starting from the accounting period in which the investment is partially or fully operational, until the investment contribution amount is reached. In this context, tax advantage amounting to TL 998.114 (December 31, 2023: TL 1.207.067) that the Group's will benefit from in the foreseeable future as of June 30, 2024 is reflected in the consolidated financial statements as a deferred tax asset. As a result of the recognition of the said tax advantage as of 30 June 2024, deferred tax expense amounting to TL 28.953 has been realized in the consolidated profit or loss statement for the period from January 1 to June 30, 2024.

According to the tax incentive certificates summarized above, no current period corporate tax provision (30 June 2023: TL 7.423) discounted corporate tax advantage has been used .

Deferred tax assets are recognized when it is determined that taxable income is likely to occur in the coming years. In cases where taxable income is likely to occur, deferred tax assets are calculated over deductible temporary differences, tax losses and tax advantages vested in indefinite-lived investment incentives that allow reduced corporate tax payments. In this context, the Group's bases the reflection of deferred tax assets arising from investment incentives in the consolidated financial statements on long-term plans and evaluates the recoverability of deferred tax assets related to these investment incentives as of each balance sheet date, based on business models that include taxable profit estimations. It is foreseen that the deferred tax assets in question will be recovered within 5 years from the balance sheet date.

In the sensitivity analysis carried out as of June 30, 2024, when the inputs in the basic macroeconomic and sectoral assumptions that make up the business plans are increased/decreased by 10%, the recovery period of deferred tax assets regarding investment incentives, which is foreseen as 5 years, has not changed.

The Group capitalizes the R&D expenditures it has made within the scope of the law numbered 5746 in its tax books. The Group makes calculations over the R&D expenditures in accordance within the framework of the relevant legislation and take benefits from the R&D discount according to law's permission. As of June 30, 2024, the Group took advantage of R&D deduction amounting to TL 12.101 (30 June 2023: TL 2.656)

#### 16. PROVISIONS, CONTINGENT ASSETS and LIABILITIES

##### *CCI and its Subsidiaries in Türkiye*

###### Litigations against the Group

CCI and subsidiaries in Türkiye are involved on an ongoing basis in 238 litigations arising in the ordinary course of business as of June 30, 2024 with an amount of TL 43.834 (December 31, 2023 – 229 litigations, TL 24.034). As of June 30, 2024, no court decision has been granted yet. Group management does not expect any adverse consequences related with these litigations that would materially affect Group's operation results or financial status or liquidity.

##### *Subsidiaries and joint ventures operating in foreign countries*

###### Litigations against the Group

As of June 30, 2024, CCBPL has tax litigations. If the claims are resulted against CCBPL, the tax liability would be TL 88.305 (December 31, 2023 – TL 104.308).

Group management does not expect any adverse consequences related with these litigations that would materially affect Group's operation results or financial status or liquidity.

As per the change in governing law in Pakistan, "Capacity Tax" was started to be applied as of July 9, 2013, replacing "Sales and Excise Tax". CCBPL fulfilled all the obligations as per the new law and change in regulations.

As of May 2014, "Capacity Tax" application was cancelled by the constitutional court and the law has been reverted to "Sales and Excise Tax". After this withdrawal, CCBPL fulfilled all the obligations again according to "Sales and Excise Tax" system.

Pakistani tax administration had previously requested additional taxes from CCBPL, citing the cancellation decision and requesting the "Sales and Excise Taxes" system to be applied retroactively before the cancellation. Company Management objected and litigated this request, since withdrawal decisions of constitutional court could not be applied retrospectively in principle also on the basis that the "Capacity Tax" implementation obligations in force in the relevant time period were fully fulfilled. As of June 30, 2024, the relevant matter has been closed between the Company and the Tax office.

**Tax and Legal Matters**

Legislation and regulations regarding taxation and foreign currency transactions in most of the territories in which the Group operates out of Türkiye continue to evolve. The various legislation and regulations are not always clearly written, and the interpretation related with the implementation of these regulations is subject to the opinions of the local, regional and national tax authorities, the Central Bank and Ministry of Finance. Tax declarations, together with other legal compliance areas are subject to review and investigation by a number of authorities, who are enabled by law to impose significant fines, penalties and interest charges. These facts create tax risks in the territories in which the Group operates substantially more so than typically found in countries with more developed tax systems.

##### Legal reserves

The legal reserves consist of first and second legal reserves, appropriated in accordance with the Turkish Commercial Code. The first legal reserve is appropriated out of historical statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the historical paid-in share capital. The second legal reserve is appropriated after the first legal reserve and dividends, at the rate of 10% per annum of all cash dividend distributions.

Listed companies distribute dividend in accordance with the communique No. II-19.1 issued by the CMB which is effective from February 1, 2014.

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly and also in conformity with relevant legislations. The communique does not constitute a minimum dividend rate. Companies distribute dividend in accordance with the method defined in their dividend policy or articles of incorporation. In addition, dividend can be distributed by fixed or variable instalments and advance can be paid in accordance with profit on financial statements of the Group.

Inflation adjustment to shareholders' equity can only be netted-off against prior years' losses and used as an internal source for capital increase where extraordinary reserves can be netted-off against prior years' loss and used in the distribution of bonus shares and dividends to shareholders. In case inflation adjustment to issued capital is used as dividend distribution in cash, it is subject to corporation tax.

**22. TAX RELATED ASSETS AND LIABILITIES****General information**

The Group is subject to taxation in accordance with the tax regulations and the legislation effective in the countries in which the Group companies operate. In Türkiye, the tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provision for taxes, as reflected in the consolidated financial statements, has been calculated on a separate-entity basis.

In Türkiye, the corporate tax rate is 25% as of June 30, 2024 (December 31, 2023: 25%). The corporate tax rate is applied to the profit after adding nondeductible expenses, exceptions and discounts accepted by the tax laws.

Different corporate tax rates of foreign subsidiaries are as follows:

	June 30, 2024	December 31, 2023
Kazakhstan	20%	20%
Azerbaijan	20%	20%
Kyrgyzstan	10%	10%
Turkmenistan	8%	8%
Tajikistan	18%	18%
Jordan	21%	20%
Iraq	15%	15%
Pakistan	39%	39%
Bangladesh	25%	-
Uzbekistan	15%	15%

For the interim condensed consolidated financial statements, subsidiaries financial statements have been translated into TL and the “translation differences” arising from such translation have been recorded in equity, under Currency Translation Adjustment. Since it’s not planned to sell any subsidiary share, these translation differences will not be reversed in the foreseeable future and not subject to deferred tax calculation in accordance with TAS 12, Income Taxes.

The list of temporary differences and the resulting deferred tax liabilities, as of June 30, 2024, and 31 December, 2023 using the prevailing effective statutory tax rate is as follows:

### Notes to Interim Condensed Consolidated Financial Statements as at June 30, 2024

(Amounts expressed in thousands of TL based on the purchasing power of Turkish Lira (“TL”) as of June 30, 2024, unless otherwise stated)

#### 25. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

##### (a) Capital Management

The primary objective of the Group’s capital management is to ensure that it maintains a strong credit rating and healthy capital ratio in order to support its business and maximize shareholder value.

The Group manages its capital structure and adjusts it considering changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders or return capital to shareholders and may decide on issue of new shares or sell assets to decrease net financial debt.

As of June 30, 2024, and December 31, 2023, debt to equity ratio, obtained by dividing the total net debt, the financial borrowings and loan debts minus cash and cash equivalents and short-term financial assets, to share capital is as follows:

	June 30, 2024	December 31, 2023
Borrowings	46.691.860	46.201.325
Less: Cash and cash equivalents and short-term financial assets	(25.522.189)	(27.604.387)
Net debt	21.169.671	18.596.938
Total share capital	254.371	254.371
<b>Net debt / Total equity ratio (%)</b>	<b>83,22</b>	<b>73,11</b>

##### (b) Interest Rate Risk

The Group is exposed to interest rate risk through the impact of rate changes on interest bearing assets and liabilities. The Group manages interest rate risk by balancing the interest rate of assets and liabilities or derivative financial instruments.

Certain parts of the interest rates related to borrowings are based on market interest rates; therefore, the Group is exposed to interest rate fluctuations on domestic and international markets. The Group’s exposure to market risk for changes in interest rates relates primarily to the Group’s debt obligations.

As of June 30, 2024, if variable interest rate on the Group’s borrowings would have been 100 basis points higher / lower with all other variables held constant, then profit / (loss) before tax and non-controlling interest for June 30, 2024, which is the following reporting period would be:

	June 30, 2024	June 30, 2023
Increase / decrease of 1% interest in U.S. Dollar denominated borrowing interest rate	3.254	199
Increase / decrease of 1% interest in Euro denominated borrowing interest rate	3.658	7.980
Increase / decrease of 1% interest in Pakistan Rupee denominated borrowing interest rate	-	1.144
Increase / decrease of 1% interest in Uzbekistan Somoni denominated borrowing interest rate	2.472	-
<b>Total</b>	<b>9.384</b>	<b>9.323</b>

As of June 30, 2024, and 2023, the analysis of financial assets of the Group exposed to interest risk as follows:

**25. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (continued)****(c) Foreign Currency Risk**

The Group is exposed to exchange rate fluctuations due to the nature of its business. This risk occurs due to purchases, sales, demand / time deposits and bank borrowings of the Group, which are denominated in currencies other than the functional currency. The Group manages its foreign currency risk by balancing the amount of foreign currency denominated assets and liabilities and by using derivate financial instruments (Note 7).

##### (d) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Group to significant concentration of credit risk consist principally of cash and cash equivalents and trade receivables. Maximum credit risk on the Group is limited to the amounts disclosed on the financial statements.

The Group maintains cash and cash equivalents with various financial institutions. It is the Group's policy to limit exposure to any one institution and revalue the credibility of the related financial institutions continuously.

The credit risk associated with trade receivables is partially limited due to a large customer base and due to management's limitation on the extension of credit to customers. The Group generally requires collateral to extend credit to its customers excluding its distributors.

As of 30 June 2024, the Group has fulfilled its financial commitments arising from its borrowings.

### Notes to Interim Condensed Consolidated Financial Statements as at June 30, 2024

(Amounts expressed in thousands of TL based on the purchasing power of Turkish Lira (“TL”) as of June 30, 2024, unless otherwise stated)

#### 25. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (continued)

##### (e) Liquidity Risk

Liquidity risk is the risk that an entity will be unable to meet its net funding requirements. The risk is mitigated by matching the cash in and out flow volume supported by committed lending limits from qualified credit institutions, bond issues, cash, and short-term deposits.

The maturity breakdown of financial assets and liabilities has been indicated by considering the period from the balance sheet date to maturity date. Those financial assets and liabilities which have no maturities have been classified under “1 to 5 years”.

##### (f) Commodity Price Risk

The Group may be affected by the price volatility of certain commodities such as sugar, aluminum, and resin. As its operating activities require the ongoing purchase of these commodities, the Group’s management has a risk management strategy regarding commodity price risk and its mitigation.

Based on a 12-month anticipated purchase of can, the Group hedges using commodity (aluminum) swap contracts (Note 7).

Based on a 15-month anticipated purchase of pet, the Group hedges using commodity (resin) swap contracts (Note 7).

Based on a 24-month anticipated production, the Group hedges using commodity (sugar) swap contracts (Note 7).

#### 26. FINANCIAL INSTRUMENTS

##### Fair Values

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and best evidenced by a quoted market price, if one exists.

Foreign currency-denominated financial assets and liabilities are revalued at the exchange rates prevailing at the balance sheet dates.

The following methods and assumptions were used in the estimation of the fair value of the Group’s financial instrument:

**Financial Assets** – The fair values of certain financial assets carried at cost, including cash and cash equivalents, and held to maturity investments plus the respective accrued interest are considered to approximate their respective carrying values due to their short-term nature and negligible credit losses. The carrying values of trade receivables along with the related allowances for bad debt are estimated to be at their fair values.

**Financial Liabilities** – The fair values of trade payables and other monetary liabilities are estimated to approximate carrying values, due to their short-term nature. The fair values of bank borrowings are considered to approximate their respective carrying values, since the initial rates applied to bank borrowings are updated periodically by the lender to reflect active market price quotations. The carrying values of trade payable are estimated to be their fair values due to their short-term nature.

##### Fair value hierarchy table

The Group classifies the fair value measurement of each class of financial instruments according to the source, using the three-level hierarchy, as follows:

Level 1: Market price valuation techniques for the determined financial instruments traded in markets

Level 2: Other valuation techniques includes direct or indirect observable inputs

Level 3: Valuation techniques does not contain observable market inputs
