The accompanying notes form an integral part of these consolidated financial statements

1. CORPORATE INFORMATION AND NATURE OF ACTIVITIES

General

Coca-Cola İçecek Anonim Şirketi ("CCI" - "the Company"), is the bottler and distributor of alcohol-free beverages in Turkey, Pakistan, Bangladesh, Central Asia and the Middle East. The operations of the Company consist of production, sales and distribution of sparkling and still beverages with The Coca-Cola Company ("TCCC") trademarks. The Company has 13 (2025 - 13) production facilities in different regions of Turkey and operates 26 (2025 - 23) production facilities in countries other than Turkey. The registered office address of CCI is OSB Mah. Deniz Feneri Sok. No:4 Ümraniye İstanbul, Turkey. The Company's publicly traded shares on Borsa Istanbul A.Ş. ("BIST").

The Group consists of the Company, its subsidiaries, and joint ventures.

The consolidated financial statements of the Group were approved for issue by the Board of Directors on November 3, 2026, which were signed by the Audit Committee and Chief Executive Officer Ahmet Kürşad Ertin. The General Assembly and the regulatory bodies have the right to make amendments to the consolidated financial statements after their issuance.

Shareholders of the Company

The company is controlled by Anadolu Efes Biracılık ve Malt Sanayi A.Ş. ("Anadolu Efes"), the parent company. Anadolu Efes is controlled by AG Anadolu Grubu Holding A.Ş., AG Anadolu Grubu Holding A.Ş. is controlled by AG Sınai Yatırım ve Yönetim A.Ş. and AG Sınai Yatırım ve Yönetim A.Ş. is a management company, which is ultimately managed by the Süleyman Kamil Yazıcı Family and Özilhan Family in accordance with equal representation and equal management principle and manages AG Anadolu Grubu Holding A.Ş.'s companies.

As of September 30, 2026, and December 31, 2025, the composition of shareholders and their respective percentage of ownership can be summarized as follows:

	September 30, 2026		December 31, 2025	
	Nominal Amount	**Percentage**	Nominal Amount	Percentage
Anadolu Efes Biracılık ve Malt Sanayi A.Ş. ("Anadolu Efes")	**1.122.520**	**40,12**	1.122.520	40,12
The Coca-Cola Export Corporation ("TCCEC")	**562.257**	**20,09**	562.257	20,09
Efes Pazarlama ve Dağıtım Ticaret A.Ş. ("Efpa")	**283.669**	**10,14**	283.669	10,14
Publicly Traded	**829.633**	**29,65**	829.633	29,65
	2.798.079	**100,00**	2.798.079	100,00
Inflation Restatement Effect	**5.297.111**		5.297.111	
	8.095.190		8.095.190	

Nature of Activities of the Group

CCI and its subsidiary Coca-Cola Satış ve Dağıtım A.Ş. ("CCSD") are among the leading bottlers and distributors of alcohol-free beverages, operating in Turkey. The sole operation area of the Company is the production, sales and distribution of sparkling and still beverages.

The Company has exclusive rights to produce, sell and distribute TCCC branded beverages including Coca-Cola, Coca-Cola Zero, Coca-Cola Zero Sugar, Coca-Cola Light, Fanta, Sprite, Cappy, Sen Sun, Powerade and Fuse Tea in TCCC authorized packages throughout Turkey provided by Bottler's and Distribution Agreements signed between the Group with TCCEC and TCCC. The renewal periods of the signed Bottler and Distribution Agreements vary, and the majority of them remain valid until 2028.

The Company has exclusive rights to produce, sell and distribute Burn and Gladiator branded energy drinks in authorized packages throughout Turkey, according to the Bottlers Agreements signed between the Company and Monster Energy Company ("MEC") and has the right for selling and distribution of Monster branded products in accordance with the International Distribution Agreement signed with Monster Energy Company ("MEC") which has taken over TCCC's global energy drink portfolio and is partially owned by TCCC as well.

The Company's international subsidiaries and joint ventures operating outside of Turkey are also engaged in the production, sales and distribution of sparkling and still beverages with TCCC trademarks.

The Group has the exclusive bottling and distribution rights in Turkey for Schweppes branded beverages under Bottler's and Distribution Agreement signed with Schweppes Holdings Limited. Special authorization for the Group operating countries, other than Turkey, may be granted from time to time.

1. CORPORATE INFORMATION and NATURE OF ACTIVITIES (continued)

Economic Conditions and Risk Factors of Subsidiaries and Joint Ventures

The countries, in which certain subsidiaries and joint ventures operate, have undergone substantial political and economic changes in recent years. Uncertainties regarding the political, legal, tax and/or regulatory environment, including the potential for adverse changes in any of these factors, could significantly affect the subsidiaries' and joint ventures ability to operate commercially. Group Management closely monitors uncertainties and adverse changes to minimize the probable effects of such changes.

In this context, Risk Detection Committee; which was established under the arrangements, terms and principles of Turkish Commercial Code, Capital Market Legislation and CMB's "Corporate Governance Principles" assess, manage and report Group risks. Some of the Group priority risks are defined as political instability and security, cyber security, exchange rate volatility, sustainable talent capability, corporate reputation, water, and environmental impact of packaging, changing consumer preferences, discriminatory tax and regulations, channel mix shift, economic slowdown, law and order and industrial relations. Group does not expect any adverse effect on the business related to any significant regulatory changes and/or legal arrangements by the authorities. All compliance efforts are in place and there is no legal dispute that may adversely affect the business.

Seasonality of Operations

Sparkling beverages consumption is seasonal, typically resulting in higher demand during the summer season and accordingly the seasonality effects are reflected in the figures. Therefore, the results of operations for the three months ended September 30, 2026, do not automatically constitute an indicator for the results to be expected for the overall fiscal year.

Average Number of Employees

Category-based average number of employees working during the period is as follows (Joint ventures are considered with full numbers for September 30, 2026, and September 30, 2025).

	September 30, 2026	September 30, 2025
Blue-collar	5.061	4.994
White-collar	5.861	5.723
Average number of employees	**10.922**	**10.717**

2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION

Basis of Preparation of Financial Statements

Statement of Compliance with TFRS

The Group has prepared its condensed consolidated financial statements for the interim period ended September 30, 2026, in the scope of the CMB's "Communiqué on Financial Reporting in Capital Market" Numbered II-14.1 (Communiqué), published in the Official Gazette dated June 13, 2013 and numbered 28676, , and the announcements explaining this communiqué, TAS 34, "Interim Financial Reporting". The interim condensed consolidated financial statements and explanatory notes are presented using the compulsory standard formats as published by the Communiqué. The entities are allowed to prepare a complete or condensed set of interim financial statements in accordance with TAS 34. In this respect, the Group has preferred to prepare condensed consolidated financial statements in the interim periods.
In addition, the consolidated financial statements are presented in accordance with the specified format in "TFRS Taxonomy Announcement", issued on 3 July 2024 by the POA, and "the Financial Statements Examples and Guidelines for Use", which is published by the Capital Markets Board of Turkey.

CCI and its subsidiaries, which operate in Turkey, keep their accounting books and their statutory financial statements in Turkish Lira ("TL") in accordance with the regulations on accounting and reporting framework and accounting standards promulgated by the CMB, Turkish Commercial Code ("TCC") and Tax Legislation and the Uniform Chart of Accounts which is issued by the Ministry of Finance. The foreign subsidiaries keep their accounting books and statutory financial statements in their local currencies and in accordance with the rules and regulations of the countries in which they operate.
The interim condensed consolidated financial statements have been prepared from the statutory financial statements of Group's subsidiaries' and joint ventures and presented in TL in accordance with Turkish Financial Reporting Standards ("TFRS") as adopted by the Public Oversight Accounting and Auditing Standards ("POA") and CMB with certain adjustments and reclassifications for the purpose of fair presentation. Such adjustments are primarily related to application of consolidation accounting, accounting for business combinations, accounting for deferred taxes on temporary differences, accounting for employee termination benefits on an actuarial basis and accruals for various expenses. Except for the financial assets carried from their fair values and assets and liabilities included in Business Combination application, consolidated financial statements are prepared on a historical cost basis.

Comparative Information

The Group maintains its accounting records and prepares its statutory financial statements in accordance with the principles and requirements issued by the Public Oversight, Accounting and Auditing Standards Authority (POA), the prevailing commercial and financial legislation, and the communiqués issued by the POA.In order to facilitate the determination of trends in the Group's financial position and performance, the current interim condensed consolidated financial statements have been prepared on a comparative basis. Accordingly, the interim condensed consolidated statement of financial position as at 30 September 2026 is presented in comparison with the consolidated statement of financial position as at 31 December 2025. The interim condensed consolidated statement of profit or loss, interim condensed consolidated statement of other comprehensive income, interim condensed consolidated statement of changes in equity and interim condensed consolidated statement of cash flows for the period ended 30 September 2026 are presented in comparison with the corresponding consolidated financial statements for the period ended 30 September 2025. There were no reclassifications in the current interim condensed consolidated financial statements.

Summary of Significant Accounting Policies and Changes

As at 30 September 2026, the interim condensed consolidated financial statements have been prepared in accordance with the accounting policies applied in the preparation of the consolidated financial statements for the year ended 31 December 2025, except for the new standards and IFRIC interpretations summarized below. Accordingly, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended 31 December 2025. During the period, only the change discussed below has occurred.
The preparation of the consolidated financial statements requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the reporting date, and the reported amounts of revenues and expenses during the reporting period. Accounting judgments, estimates and assumptions are assessed based on historical experience, other relevant factors and reasonable expectations regarding future events under the circumstances existing at the reporting date. Although these estimates and assumptions are based on management's best knowledge of current events and transactions, actual results may differ from those estimates and assumptions.

2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

Summary of Significant Accounting Policies and Changes (continued)

In Turkey, the corporate tax rate is 25% as of September 30, 2026 (December 31, 2025: 25%). The corporate tax rate is applied to the profit after adding nondeductible expenses, exceptions and discounts accepted by the tax laws. Pursuant to Law No. 7582 published on 4 June 2026, the corporate income tax rate applicable to profits generated from manufacturing activities by entities holding an industrial registry certificate and actively engaged in manufacturing has been reduced from 25% to 12,5%, effective from 1 January 2027. Although the amendment does not affect current tax calculations for the reporting period, the impact of the revised tax rate has been incorporated into the measurement of deferred tax assets and liabilities recognized in the financial statements as of 30 September 2026, based on whether the relevant temporary differences are attributable to manufacturing or non-manufacturing activities.

Financial Reporting in High-Inflation Economies

Based on the CMB's decision dated 28 December 2023 and numbered 81/1820 and the "Implementation Guide on Financial Reporting in High Inflation Economies" published by the POA with the announcement made on 23 November 2023, issuers and capital market institutions subject to financial reporting regulations applying Turkish Accounting/Financial Reporting Standards will apply inflation accounting by applying the provisions of TAS 29, starting from their annual financial reports for the accounting periods ending as of December 31, 2023.

As of September 30, 2026, an adjustment has been made in accordance with the requirements of TAS 29 ("Financial Reporting in High Inflation Economies") regarding the changes in the general purchasing power of the Turkish Lira. TAS 29 requirements require that financial statements prepared in the currency in circulation in the economy with high inflation be presented at the purchasing power of this currency at the balance sheet date and that the amounts in previous periods are rearranged in the same way. One of the requirements that requires the application of TAS 29 is a three-year compound inflation rate approaching or exceeding 100%. The indexing process was carried out using the coefficient obtained from the Consumer Price Index in Turkey published by the Turkish Statistical Institute ("TUIK"). Effective as of 2026, the base year has been updated by TUIK to 2025=100. Accordingly, index values previously reported under different base years and scaling methodologies have been recalculated and restated by TUIK to reflect the new base year. TUIK has also restated historical index data to enhance consistency and comparability across reporting periods.

The indices and correction coefficients used in the correction of the financial statements of the current and previous periods since January 1, 2005 are as follows:

Date	Index	Coefficient	Three Year Compound Interest Rate
30 September 2026	137,23	1,00000	158%
31 December 2025	110,39	1,24317	211%
30 September 2025	105,78	1,29732	222%

The main elements of the Company's adjustment for financial reporting purposes in high-inflation economies are as follows:

- Current period financial statements prepared in TL are expressed with the purchasing power of money valid at the balance sheet date, and the amounts from previous reporting periods are expressed by correcting the purchasing power of money at the last balance sheet date.
- Monetary assets and liabilities are not adjusted as they are currently expressed with current purchasing power at the balance sheet date. In cases where the inflation-adjusted values of non-monetary items exceed the recoverable amount or net realizable value, the provisions of TAS 36 and TAS 2 were applied, respectively.
- Non-monetary assets and liabilities and equity items that are not expressed in current purchasing power at the balance sheet date have been corrected using the relevant correction coefficients.
- All items included in the income statements and other comprehensive income statements, except cost of sales, depreciation expense, profit/loss on asset sales, have been adjusted using the relevant monthly adjustment coefficients. Cost of sales, depreciation expense, asset sales profit/loss items have been recalculated on the basis of adjusted balance sheet items using correction coefficients.
- All items in the statement of cash flows are expressed in the unit of measurement valid at the end of the reporting period
- The effect of inflation on the Company's net monetary asset position in the current period is recorded in the net monetary position loss account in the income statement.

Comparative Figures:

- The relevant figures for the previous reporting period are rearranged by applying the general price index so that comparative financial statements are presented in the unit of measurement valid at the end of the reporting period. Information disclosed for previous periods is also presented in the measurement unit valid at the end of the reporting period.

2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

New and Amended Turkish Financial Reporting Standards

a) Standards, amendments, and interpretations applicable as of 30 September 2026:

- **Amendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments**; effective from annual reporting periods beginning on or after 1 January 2026 (earlier application permitted). These amendments:

• clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
• clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
• add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and
• make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).

- **Annual improvements to IFRS – Volume 11;** effective from annual periods beginning on or after 1 January 2026 (earlier application permitted). Annual improvements are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversights or conflicts between the requirements in the Accounting Standards. The 2024 list of amended Accounting Standard and accompanying guidance include the following:

  • IFRS 1 First-time Adoption of International Financial Reporting Standards;
  • IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7;
  • IFRS 9 Financial Instruments;
  • IFRS 10 Consolidated Financial Statements; and
  • IAS 7 Statement of Cash Flows.

- **Amendment to IFRS 9 and IFRS 7 - Contracts Referencing Nature-dependent Electricity;** effective from annual periods beginning on or after 1 January 2026 (earlier application permitted). These amendments change the 'own use' and hedge accounting requirements of IFRS 9 and include targeted disclosure requirements to IFRS 7. These amendments apply only to contracts that expose an entity to variability in the underlying amount of electricity because the source of its generation depends on uncontrollable natural conditions (such as the weather). These are described as 'contracts referencing nature-dependent electricity'.

b) Standards, amendments, and interpretations that are issued but not effective as of 30 September 2026:

- **Amendments to IAS 21 - Translation to a Hyperinflationary Presentation Currency;** effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). These narrow-scope amendments specify the translation procedures for an entity whose presentation currency is that of a hyperinflationary economy. The entity applies the amendments if:

  • its functional currency is that of a non-hyperinflationary economy and it is translating its results and financial position into the currency of a hyperinflationary economy; or
  • it is translating into the currency of a hyperinflationary economy the results and financial position of a foreign operation whose functional currency is that of a non-hyperinflationary economy.

  The amendments aim to improve the usefulness of the resulting information in a cost-effective manner and reduce diversity in practice.

2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

New and Amended Turkish Financial Reporting Standards (continued)

b) Standards, amendments, and interpretations that are issued but not effective as of 30 September 2026:

- **Amendment to IAS 28 – Fair Value Option in Investments in Associates and Joint Ventures;** effective from annual periods beginning on or after 1 January 2027. If an entity has elected to apply IFRS 18 early and to use the fair value option granted by these amendments (for example, for a 30 September 2026 period-end), the entity should apply the amendments retrospectively for the reporting period ending on or after the issuance of these amendments (that is, also for the 30 September 2026 period-end). These amendments clarify which entities are eligible to measure investments in associates and joint ventures at fair value under IAS 28. The exemption from applying the equity method in IAS 28 allows eligible entities to make an election to measure investments in associates and joint ventures at fair value through profit or loss ('fair value option'). This election has to be made separately for each associate or joint venture at initial recognition.

  These amendments address stakeholders' concerns about the diversity in practice when determining the scope of entities eligible to apply the fair value option. This diversity has become increasingly important because the measurement at either fair value or using the equity method affects the classification of income and expenses in the statement of profit or loss under IFRS 18 in either the operating or the investing category.
- **IFRS 18 Presentation and Disclosure in Financial Statements;** effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:
  - the structure of the statement of profit or loss;
  - required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
  - enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.
- **IFRS 19 Subsidiaries without Public Accountability: Disclosures';** effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). This new standard and amendments works alongside other IFRS Accounting Standards. An eligible subsidiary applies the requirements in other IFRS Accounting Standards except for the disclosure requirements and instead applies the reduced disclosure requirements in IFRS 19. IFRS 19's reduced disclosure requirements balance the information needs of the users of eligible subsidiaries' financial statements with cost savings for preparers. IFRS 19 is a voluntary standard for eligible subsidiaries. A subsidiary is eligible if:
  - Does not have public accountability; and
  - Has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards.

2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

New and Amended Turkish Financial Reporting Standards (continued)

b) Standards, amendments, and interpretations that are issued but not effective as of 30 September 2026:

- **Amendment to IFRS 19 Subsidiaries without Public Accountability: Disclosures';** effective from annual periods beginning on or after 1 January 2027 (earlier application permitted). In developing the reduced disclosure requirements in IFRS 19, the IASB considered the disclosure requirements in other IFRS Accounting Standards as at 28 February 2021. When IFRS 19 was issued, it did not contain reduced versions of any disclosure requirements that were added or amended after that date. Subsequently, the IASB issued these amendments to help eligible subsidiaries by reducing disclosure requirements for Standards and amendments issued between February 2021 and May 2024, specifically:

  - IFRS 18, 'Presentation and Disclosure in Financial Statements';
  - Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7);
  - International Tax Reform—Pillar Two Model Rules (Amendments to IAS 12);
  - Lack of Exchangeability (Amendments to IAS 21); and
  - Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7).

- **IFRS 20 Regulatory Assets and Regulatory Liabilities;** effective from annual periods beginning on or after 1 January 2029 (earlier application permitted). This is a new Accounting Standard for entities subject to a specific type of rate regulation. It aims to help investors better understand how that rate regulation affects an entity's financial performance, financial position and its prospects for future cash flows.
  IFRS 20 will affect entities subject to rate regulation that determines how much an entity can charge customers and when it can charge them. Entities that supply vital services such as electricity, water and gas are often subject to this type of regulation.
  If there is a difference between when an entity supplies regulatory goods and services and when it charges customers for those goods and services, reported revenue may not fully reflect the entity's performance in a period. IFRS 20 calls this a 'difference in timing'. The key principle of IFRS 20 is that an entity should recognise the total allowed compensation for regulatory goods or services in the same reporting period that the entity supplies those regulatory goods or services. IFRS 20 requires entities to account for the effects of differences in timing in their financial statements by recognising regulatory assets and regulatory liabilities and the resulting regulatory income and regulatory expense.

2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

Functional and Presentation Currency

The majority of the consolidated foreign subsidiaries and joint venture are regarded as foreign operations since they are financially, economically and organizationally autonomous. The Group translates in accordance with "TAS 21 The Effects of Changes in Foreign Exchange Rates" The resulting translated amounts for non-monetary items are treated as their historical cost.

Functional and presentation currency of the Group is Turkish Lira (TL). Functional currencies of the subsidiaries and joint ventures are as follows:

	September 30, 2026		December 31, 2025	
	Local Currency	**Functional Currency**	Local Currency	Functional Currency
CCSD	**Turkish Lira**	**Turkish Lira**	Turkish Lira	Turkish Lira

Foreign Currency Translations

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are recorded in the consolidated income statement of the relevant period, as foreign currency loss or gain. Foreign currency translation rates announced by the Central Bank of the Republic of Turkey used by the Group's subsidiaries in Turkey. USD amounts presented in the asset accounts are translated into TL with the official TL exchange rate of USD buying on September 30, 2026, USD 1,00 (full) = TL 48,9303 (December 31, 2025; USD 1,00 (full) = TL 42,8457) whereas USD amounts in the liability accounts are translated into TL with the official TL exchange rate of USD selling on September 30, 2026, USD 1,00 (full) = TL 49,0184 (December 31, 2025; USD 1,00 (full) = TL 42,9229). Furthermore, USD amounts in the income statement are translated into TL, at the average TL exchange rate for USD buying for the period is USD 1,00 (full) = TL 45,5977 (January 1 - September 30, 2025; USD 1,00 (full) = TL 38,5442).

The assets and liabilities of subsidiaries and joint ventures operating in foreign countries are translated at the rate of exchange ruling at the balance sheet date and the income statements of foreign subsidiaries and joint ventures are translated at average exchange rates. Differences that occur by the usage of closing and average exchange rates are followed under currency translation differences classified under equity.

Estimates, Assumptions and Judgements Used

For the condensed consolidated interim financial statements, as of September 30, 2026, Group management has to make key assumptions concerning the future and other key sources of estimation uncertainty on the balance sheet date that have significant risks of causing a material adjustment to the carrying amounts of assets and liabilities in the preparation of condensed consolidated financial statements. Actual results can be different from estimations. These estimations are reviewed at each balance sheet date; required corrections are made and reflected in the results of operations of the related period. The key assumptions concerning the future and other key resources of estimation at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and the significant judgments (apart from those involving estimations) with the most significant effect on amounts recognized in the financial statements are consistent with the assumptions and estimations made for the year ended December 31, 2025, except for the necessary considerations made for income taxes.

2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

Estimates, Assumptions and Judgements Used (continued)

The Company was assessed an additional customs duty assessment amounting to TL 705.793.270,02 and an administrative monetary penalty amounting to TL 2.117.379.810,06 by the Izmir Customs Directorate of the Ministry of Trade of the Republic of Türkiye, with the right to seek judicial remedy. Legal proceedings for the annulment of the aforementioned additional assessment and administrative monetary penalty were initiated within the statutory period. Group Management does not expect any cash outflow in relation to this matter until the legal process reaches a more advanced stage. (The relevant amounts have not been restated in terms of the purchasing power as of 30 September 2026 in accordance with TAS 29, and the amounts in the paragraph are presented as published on the Public Disclosure Platform).

In addition, the matter has been evaluated by the Group management, legal counsel, operational specialists, and finance teams in accordance with TAS 37 Provisions, Contingent Liabilities and Contingent Assets. Based on this assessment, as of the reporting date, it was concluded that an outflow of resources embodying economic benefits in relation to the additional assessment and administrative monetary penalty is not probable. Accordingly, the recognition criteria for a provision have not been met. Consequently, the matter has been classified as a contingent liability rather than a provision under TAS 37, and no provision has been recognized in the financial statements. Management will continue to assess any new information and developments related to this contingent liability in each reporting period and perform the necessary evaluations accordingly (Note 15).

3. SEGMENT REPORTING

The Company produces segment reports for the chief operating decision maker (Board of Directors and Executive Management) in accordance with basis of preparation as explained in Note 2. Reported information is used by management for observing performance at operation segments and for deciding resource allocation.

Adjusted earnings before interest and tax (Adjusted EBITDA) is not an accounting measure under TFRS accounting and does not have a standard calculation method however it has been considered as the optimum indicator for the evaluation of the performance of the operating segments by considering the comparability with the entities in the same business.

Group's domestic and international subsidiaries are presented under Note 1 and Group's segment reporting is as follows:

	September 30, 2026			
	Domestic	**International**	**Elimination**	**Consolidated**
Net Revenue	77.566.155	120.956.946	-	198.523.101

Adjusted EBITDA	33.799.367	24.724.087	(23.748.618)	34.774.836

	December 31, 2025			
	Domestic	**International**	**Elimination**	**Consolidated**
Total Assets	215.744.213	151.410.372	(129.988.394)	237.166.191
Total Liabilities	77.773.333	56.273.932	(4.573.358)	129.473.907

In addition to the requirements of segment reporting, The Group's management presented this information for certain financial statements readers to utilize this data during their analyses.

Company's "Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA)" definition and calculation is defined as; "Profit / (Loss) From Operations" plus relevant non-cash expenses including depreciation and amortization, provision for employee benefits like retirement and vacation pay (provisions for management bonus and long term incentive plan not included) and other non-cash expenses like negative goodwill and value increase due to change in scope of consolidation.

As of September 30, 2026, and 2025, reconciliation of Adjusted EBITDA to profit / (loss) from operations is explained in the following table:

	September 30, 2026	September 30, 2025
Profit / (loss) from operations	30.958.433	27.091.629
Depreciation and amortization	7.413.683	6.861.593
Provision for employee benefits	465.915	466.616
Foreign exchange gain / (loss) under other operating income / (expense) (Note 19)	273.895	59.985
Amortization expense of right of use asset	444.291	295.013
Adjusted EBITDA	**39.556.217**	34.774.836

4. CASH AND CASH EQUIVALENTS

	September 30, 2026	December 31, 2025
Cash on hand	**41.694**	3.074
Cash in banks		
-Time deposit	**25.872.739**	23.328.284
-Demand deposit	**14.660.209**	9.369.226
	40.574.642	32.700.584

As of September 30, 2026, time deposits with maturities less than 3 months in foreign currencies existed for periods varying between 1 day to 89 days (December 31, 2025 - 1 day to 83 days) and earned interest between 0,04% - 17,5% (December 31, 2025 - 0,04% - 18%).

As of September 30, 2026, time deposits in local currency existed for periods varying between 1 days to 6 days (December 31, 2025 - TL, 2 days to 89 days) and earned interest between 36,25% - 38% (December 31, 2025 – 35% - 40,15%)

As of September 30, 2026, there is TL 13.672 (December 31, 2025 - TL 49.472) of interest income accrual on time deposits with maturities less than 3 months. As of September 30, 2026, and December 31, 2025, the fair values of cash and cash equivalents are equal to book value.

The credit risks of the banks where the Company has deposits are evaluated by taking into account independent data, and no significant credit risk is expected. The market values of cash and cash equivalents approximate their carrying values including the accrued interest income at the balance sheet date.

5. FINANCIAL INVESTMENTS

	September 30, 2026	December 31, 2025
Restricted cash	**79.733**	276.142
	79.733	276.142

Restricted bank balance is the blocked amount in the bank for collateral of letters of credit in Uzbekistan, Samarkand, Namangan and Pakistan.

6. DERIVATIVE FINANCIAL INSTRUMENTS

As of September 30, 2026, the Group has aluminum swap transactions with a total nominal value of TL 329.414. It has been designated as a hedging instrument that may arise from the cash flows of metal can purchases in years 2026 and has been subject to cash flow hedge accounting.

As of December 31, 2025, the Group has aluminum swap transactions with a total nominal amount of TL 1.436.328. It has been designated as a hedging instrument that may arise from the cash flows of metal can purchases in years 2026 and has been subject to cash flow hedge accounting.

As of September 30, 2026, the Group has sugar swap transactions with a total nominal value of TL 1.782.038. The designation as a hedging instrument that may arise from the cash flows of sugar purchases in years 2026-2028 has been subject to cash flow hedge accounting.

As of December 31, 2025, the Group has sugar swap transactions with a total nominal value of TL 70.874. The designation as a hedging instrument that may arise from the cash flows of sugar purchases in years 2026 has been subject to cash flow hedge accounting.

As of September 30, 2026, the Group has forward derivative financial instruments with a maturity of December 2026 in the amount of 16,3 million EUR and the nominal value of these transactions are TL 904.163. In addition to this, the Group has executed 6 billion TL maturity of August-December 2026 cross currency rate swap agreement and the nominal value of this transaction is TL 6.000.000 respectively.

As of December 31, 2025, the Group has forward derivative financial instruments with a maturity of June 2026 in the amount of 20,3 million EUR, with a maturity of April 2026 in the amounts of 1,2 million EUR and 5,6 million US dollar in order to hedge exchange rate risk and the nominal value of these transactions are TL 1.274.474, TL 75.152 and TL 298.281. In addition to this, the Group has executed a 3 million US dollar cross currency swap agreement with a maturity of February 2026, and 6 billion TL maturity of February-December 2026 cross currency rate swap agreement and the nominal value of these transactions are TL 183.841 and TL 7.148.228 respectively.

As of September 30, 2026, a hedging transaction amounting to 558,2 million USD (TL 27.361.180) has been executed to hedge the net investment in a foreign operation.

As of December 31, 2025, a hedging transaction amounting to 565,4 million USD (TL 30.172.916) has been executed to hedge the net investment in a foreign operation.

In the event of reasonably possible changes in the hedged risks (such as a 20% fluctuation in foreign exchange rates or commodity prices), no material impact on the financial statements is expected.

Interest paid	(6.452.831)	(12.263.408)
Changes in interest accruals	**1.524.725**	87.837
Foreign exchange loss / (gain) from foreign currency denominated borrowings	3.719.006	6.378.606
Monetary gain / loss	(8.670.095)	(12.817.358)
Currency translation adjustment	(2.681.707)	(1.289.096)
Financial borrowing at the end of the period	**52.305.940**	**71.905.855**

Lease Liabilities

As of September 30, 2026, net present value of liabilities under lease liabilities is amounting to TL 1.801.697. Movement tables of lease liabilities as of September 30, 2026, and 2025 are as follows:

	September 30, 2026	September 30, 2025
Balance as of January 1st	**1.762.319**	1.410.595
Increase in lease liabilities	**967.199**	628.024
Change in lease liabilities	**98.354**	26.403
Payments during the year	**(638.897)**	(255.742)
Interest expense of lease liabilities	**221.472**	135.439
Foreign exchange loss / (gain)	**16.019**	5.362
Currency translates on differences	**(624.769)**	(552.423)
Gains on termination of lease agreements	**-**	(208.787)
Balance at the end of the period	**1.801.697**	1.188.871

8. OTHER RECEIVABLES AND PAYABLES

Other Receivables

	September 30, 2026	December 31, 2025
Receivables due from personnel	**44.133**	41.546
Deposits and guarantees given	**5.413**	5.451
Other	**97.943**	205.843
	147.489	252.840

Other Payables

	September 30, 2026	December 31, 2025
Taxes and duties payable	**3.238.849**	2.639.111
Deposits and guarantees	**6.365.392**	3.663.134
Other	**134.535**	169.385
	9.738.776	6.471.630

9. PREPAID EXPENSES

a) Short term prepaid expenses

	September 30, 2026	December 31, 2025
Prepaid marketing expenses	**2.028.569**	2.279.849
Prepaid insurance expenses	**638.479**	531.578
Prepaid rent expenses	**13.849**	9.925
Prepaid other expenses	**519.501**	517.081
Advances given to suppliers	**2.744.982**	2.251.205
	5.945.380	5.589.638

b) Long term prepaid expenses

	September 30, 2026	December 31, 2025
Prepaid marketing expenses	**1.443.204**	808.425
Prepaid other expenses	**109.584**	40.344
Advances given to suppliers	**1.032.678**	867.077
	2.585.466	1.715.846

c) Short term deferred income

	September 30, 2026	December 31, 2025
Advances received	**557.342**	892.140
Deferred income	**156.718**	-
	714.060	892.140

d) Long term deferred income

	September 30, 2026	December 31, 2025
Deferred income	**166.590**	-
	166.590	-

10. INVESTMENT IN JOINT VENTURES

Investment in joint ventures, consolidated under the equity method of accounting, is carried in the consolidated financial position at cost plus post-acquisition changes in the Group's share of net assets of the joint ventures, less any impairment in value. The consolidated income statement reflects the Group's share of the results of operations of the joint ventures.

As of September 30, 2026, and December 31, 2025, total assets and total liabilities and as of September 30, 2026, and 2025 net sales, and current year gain/(loss) of SSDSD is as follows:

SSDSD	**September 30, 2026**	December 31, 2025
Total assets	**1.222**	155
Total liabilities	**136.629**	122.126
Equity	**(135.407)**	(121.971)

SSDSD	**September 30, 2026**	September 30, 2025
Net revenue	**-**	-
Net loss for the period	**(1.837)**	14.093
Group's share in loss	**(919)**	7.047

11. PROPERTY, PLANT AND EQUIPMENT

As of September 30, 2026 and 2025, property, plant and equipment movement tables are as follows:

Cost	January 1, 2026	Additions	Transfers	Disposals	Impairment	Currency translation differences	September 30, 2026
Land and buildings	45.886.257	128.270	650.723	(4.213)	-	(1.494.375)	**45.166.662**

13. GOODWILL

As of September 30, 2026, and 2025 six months period ending movements of goodwill are as follows:

	January 1, 2026	Currency Translation Difference	September 30, 2026
Net book value	**8.697.516**	**(351.780)**	**8.345.736**

	January 1, 2025	Currency Translation Difference	September 30, 2025
Net book value	8.976.841	(338.402)	8.638.439

As of September 30, 2026, and 2025 operating segment distribution of goodwill is presented below:

	Domestic	International	Consolidated
September 30, 2026	**-**	**8.345.736**	**8.345.736**
September 30, 2025	-	8.638.439	8.638.439

14. GOVERNMENT INCENTIVES

The Group's earnings from investments tied to an incentive certificate are subject to corporate tax at discounted rates, starting from the accounting period in which the investment is partially or fully operational, until the investment contribution amount is reached. In this context, tax advantage amounting to TL 1.860.164 (December 31, 2025: TL 1.878.432) that the Group's will benefit from in the foreseeable future as of September 30, 2026 is reflected in the consolidated financial statements as a deferred tax asset. As a result of the recognition of the said tax advantage as of 30 September 2026, deferred tax income amounting to TL 18.268 has been realized in the consolidated profit or loss statement for the period from January to September 30, 2026.

According to the tax incentive certificates summarized above, no current period corporate tax provision (30 September 2026: None) discounted corporate tax advantage has been used.

The Group capitalizes its research and development ("R&D") expenditures in its statutory books. In accordance with the relevant legislation, the Group calculates its R&D expenditures and benefits from R&D tax deductions for the portion permitted by law. A tax benefit amounting to TL 21.282 (December 31, 2025: None), arising from unused R&D deductions expected to be utilized in the foreseeable future, has been recognized as a deferred tax asset in the financial statements. In relation to this deferred tax asset, a deferred tax income of TL 21.282 has been recognized in the statement of profit or loss for the period from January 1 to September 30, 2026.

Deferred tax assets are recognized when it is determined that taxable income is likely to occur in the coming years. In cases where taxable income is likely to occur, deferred tax assets are calculated over deductible temporary differences, tax losses and tax advantages vested in indefinite-lived investment incentives that allow reduced corporate tax payments. In this context, the Group's bases the reflection of deferred tax assets arising from investment incentives in the consolidated financial statements on long-term plans and evaluates the recoverability of deferred tax assets related to these investment incentives as of each balance sheet date, based on business models that include taxable profit estimations. It is foreseen that the deferred tax assets in question will be recovered within 5 years from the balance sheet date.

In the sensitivity analysis carried out as of September 30, 2026, when the inputs in the basic macroeconomic and sectoral assumptions that make up the business plans are increased/decreased by 10%, the recovery period of deferred tax assets regarding investment incentives, which is foreseen as 5 years, has not changed.

15. PROVISIONS, CONTINGENT ASSETS and LIABILITIES

CCI and its Subsidiaries in Turkey

Litigations against the Group

CCI and subsidiaries in Turkey are involved on an ongoing basis litigations arising in the ordinary course of business as of September 30, 2026 with an amount of TL88.867 (December 31, 2025 – TL 57.677). As of September 30, 2026, no court decision has been granted yet. Group management does not expect any adverse consequences related with these litigations that would materially affect Group's operation results or financial status or liquidity.

Subsidiaries and joint ventures operating in foreign countries

Litigations against the Group

The Group's subsidiary operating in Uzbekistan, LLC Coca-Cola Bottlers Uzbekistan ("CCBU"), was subjected to a tax inspection. As a result of this inspection, in May 2025, a total amount of approximately UZS 314.5 billion (equivalent to approximately USD 25 million), comprising taxes, penalties and interest was assessed and accounted in the financial statements in 2025. The assessed amount was paid on January 5, 2026. CCBU has initiated legal proceedings in relation to this matter, and the Group's management expects the outcome of the case to be favorable.

As of September 30, 2026, CCBPL has tax litigations. If the claims are resulted against CCBPL, the tax liability would be TL 133.910 (December 31, 2025 – TL 142.374).

Group management does not expect any adverse consequences related with these litigations that would materially affect Group's operation results or financial status or liquidity.

15. PROVISIONS, CONTINGENT ASSETS and LIABILITIES (continued)

Company (CCI) and Parents Included in the Scope of Consolidation

Tax and Legal Matters

Legislation and regulations regarding taxation and foreign currency transactions in most of the territories in which the Group operates out of Turkey continue to evolve. The various legislation and regulations are not always clearly written, and the interpretation related with the implementation of these regulations is subject to the opinions of the local, regional and national tax authorities, the Central Bank and Ministry of Finance. Tax declarations, together with other legal compliance areas are subject to review and investigation by a number of authorities, who are enabled by law to impose significant fines, penalties and interest charges. These facts create tax risks in the territories in which the Group operates substantially more so than typically found in countries with more developed tax systems.

15. PROVISIONS, CONTINGENT ASSETS and LIABILITIES (continued)

The Company was assessed an additional customs duty assessment amounting to TL 705.793.270,02 and an administrative monetary penalty amounting to TL 2.117.379.810,06 by the Izmir Customs Directorate of the Ministry of Trade of the Republic of Türkiye, with the right to seek judicial remedy. Legal proceedings for the annulment of the aforementioned additional assessment and administrative monetary penalty were initiated within the statutory period. Group Management does not expect any cash outflow in relation to this matter until the legal process reaches a more advanced stage. (The relevant amounts have not been restated in terms of the purchasing power as of 30 September 2026 in accordance with TAS 29, and the amounts in the paragraph are presented as published on the Public Disclosure Platform).

In addition, the matter has been evaluated by the Group management, legal counsel, operational specialists, and finance teams in accordance with TAS 37 Provisions, Contingent Liabilities and Contingent Assets. Based on this assessment, as of the reporting date, it was concluded that an outflow of resources embodying economic benefits in relation to the additional assessment and administrative monetary penalty is not probable. Accordingly, the recognition criteria for a provision have not been met. Consequently, the matter has been classified as a contingent liability rather than a provision under TAS 37, and no provision has been recognized in the financial statements. Management will continue to assess any new information and developments related to this contingent liability in each reporting period and perform the necessary evaluations accordingly.

16. COMMITMENTS

Murabaha

CCBPL has signed Murabaha facility agreements with Habib Bank Limited and Standard Chartered Bank ("Banks"). Based on these agreements, the Banks and CCBPL agree that they shall enter into a series of sugar and resin purchase transactions from time to time on the dates and in the amounts to be agreed between them subject to the terms of this agreement. As of September 30, 2026, CCBPL has a commitment to purchase 64,8 million USD of sugar from the Banks by the end of 31 December 2026, and 2,1 million USD of resin by the end of 31 December 2026.

CCBPL has signed Murabaha facility agreements with Habib Bank Limited and Standard Chartered Bank ("Banks"). Based on these agreements, the Banks and CCBPL agree that they shall enter into a series of sugar and resin purchase transactions. As of December 31, 2025, CCBPL has a commitment to purchase 5,5 million USD of sugar and resin from the Banks by the end of 30 June 2026, and 20 million USD of sugar and resin by the end of 30 September 2026.

17. OTHER ASSETS AND LIABILITIES

a) Other Current Assets

	September 30, 2026	December 31, 2025
VAT receivables	**2.672.380**	3.033.090
Other	**319.394**	526.195
	2.991.774	3.559.285

b) Other Current Liabilities

	September 30, 2026	December 31, 2025
Put option of share from non-controlling interest	**115.475**	125.607
Other	**261.124**	189.237
	376.599	314.844

As of September 30, 2026, the obligation of TL 115.475 results from the put option carried, for the purchase of 12,5% of Turkmenistan CC shares from Day Investment Ltd., with a consideration of USD 2.360 thousand USD amount is converted with the official USD purchase rate announced by Central Bank of Republic of Turkey and booked under put option of share from non-controlling interest under other current liabilities (December 31, 2025-TL 125.607).

18. EQUITY

Share Capital

	September 30, 2026	December 31, 2025
Common shares 1 Kr par value		
Authorized and issued (units)	**279.807.860.200**	279.807.860.200

Legal reserves

The legal reserves consist of first and second legal reserves, appropriated in accordance with the Turkish Commercial Code. The first legal reserve is appropriated out of historical statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the historical paid-in share capital. The second legal reserve is appropriated after the first legal reserve and dividends, at the rate of 10% per annum of all cash dividend distributions.

Listed companies distribute dividend in accordance with the communique No. II-19.1 issued by the CMB which is effective from February 1, 2014.

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly and also in conformity with relevant legislations. The communique does not constitute a minimum dividend rate. Companies distribute dividend in accordance with the method defined in their dividend policy or articles of incorporation. In addition, dividend can be distributed by fixed or variable instalments and advance can be paid in accordance with profit on financial statements of the Group.

Inflation adjustment to shareholders' equity can only be netted-off against prior years' losses and used as an internal source for capital increase where extraordinary reserves can be netted-off against prior years' loss and used in the distribution of bonus shares and dividends to shareholders. In case inflation adjustment to issued capital is used as dividend distribution in cash, it is subject to corporation tax.

As of September 30, 2026, breakdown of the equity in the financial statements of CCI prepared in accordance with the Tax Procedure Law are as follows.

	30 September 2026		
	PPI Indexed Legal Records	**CPI Indexed Records**	**Amounts followed in Accumulated Profit / Loss**
Share Capital Adjustment Differences	15.891.456	5.297.111	10.594.345
Share Premium	-	6.394.768	(6.394.768)
Restricted Reserves Allocated from Net Profit	3.173.862	6.714.470	(3.540.608)

Dividends

According to our company's consolidated financial statements prepared in accordance with CMB accounting standards, the net profit for the 2025 fiscal year was 14.072.351.000,00 TL. After deducting legal obligations, our Board of Directors has submitted to the General Assembly that a total gross amount of 4.001.252.400,86 TL will be distributed to the partners as of May 12, 2026, to be covered entirely from the 2025 net period profit, and the remaining part of the 2025 net period profit will be left within our Company as an extraordinary reserve. The proposal was approved in General Assembly.

Entities which are Türkiye resident taxpayers or entitled to such dividends through a permanent establishment or a permanent representative in Türkiye, received a gross cash dividend of TL 1,4300 (net TL 1,4300) per 100 shares, representing TL 1 nominal value. While other shareholders received gross TL 1,4300 (net TL 1,2155) per 100 shares (Full TL).

The amounts in two paragraphs above are shown as published on KAP.

No privilege is granted to any share group regarding dividend distribution.

21. TAX RELATED ASSETS AND LIABILITIES

General information

The Group is subject to taxation in accordance with the tax regulations and the legislation effective in the countries in which the Group companies operate. In Turkey, the tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provision for taxes, as reflected in the consolidated financial statements, has been calculated on a separate-entity basis.

In Turkey, the corporate tax rate is 25% as of September 30, 2026 (December 31, 2025: 25%). The corporate tax rate is applied to the profit after adding nondeductible expenses, exceptions and discounts accepted by the tax laws. Pursuant to Law No. 7582 published on 4 June 2026, the corporate income tax rate applicable to profits generated from manufacturing activities by entities holding an industrial registry certificate and actively engaged in manufacturing has been reduced from 25% to 12,5%, effective from 1 January 2027. Although the amendment does not affect current tax calculations for the reporting period, the impact of the revised tax rate has been incorporated into the measurement of deferred tax assets and liabilities recognized in the financial statements as of 30 September 2026, based on whether the relevant temporary differences are attributable to manufacturing or non-manufacturing activities.

Different corporate tax rates of foreign subsidiaries are as follows:

	September 30, 2026	December 31, 2025
Kazakhstan	**20%**	20%
Azerbaijan	**20%**	20%
Kyrgyzstan	**10%**	10%
Turkmenistan	**8%**	8%
Tajikistan	**18%**	18%
Jordan	**21%**	21%
Iraq	**15%**	15%
Pakistan	**39%**	39%
Uzbekistan	**15%**	15%
Bangladesh	**25%**	25%

For the consolidated financial statements, subsidiaries financial statements have been translated into TL and the "translation differences" arising from such translation have been recorded in equity, under Currency Translation Adjustment. Since it's not planned to sell any subsidiary share, these translation differences will not be reversed in the foreseeable future and not subject to deferred tax calculation in accordance with TAS 12, Income Taxes.

According to the OECD Pillar 2 Rules, if the tax burden of multinational enterprises with worldwide annual consolidated revenues exceeding EUR 750 million equivalent to Turkish Lira falls below 15%, a top-up tax may be levied. Considering the OECD's Pillar 2 Model Rules, it is assessed that the Pillar 2 Model Rules will not have a significant impact on financials. In addition, the Group has applied the exception from recognizing and disclosing information about deferred tax assets and liabilities related to Pillar Two Income Taxes.

21. TAX RELATED ASSETS AND LIABILITIES (continued)

The list of temporary differences and the resulting deferred tax liabilities, as of September 30, 2026, and December 31, 2025 using the prevailing effective statutory tax rate is as follows:

	September 30, 2026		December 31, 2025	
	Cumulative Temporary Difference	**Deferred Tax Assets / (Liabilities)**	Cumulative Temporary Difference	Deferred Tax Assets / (Liabilities)
Tangible and intangible assets	(34.246.962)	(9.766.110)	(37.341.506)	(9.934.046)
Right of use asset	(264.195)	(86.177)	(227.618)	(79.754)
Borrowings	(144.755)	(34.866)	(680.468)	(160.705)

Deferred tax assets		723.634		1.604.920
Deferred tax liabilities		(6.935.775)		(8.252.944)
Deferred tax liability, net		**(6.212.141)**		**(6.648.024)**

The expiration dates of carryforward tax losses for which no deferred taxes are calculated as follows;

	September 30, 2026	December 31, 2025
2029	**561.929**	-
	561.929	-

As of September 30, 2026, and 2025, the movement of net deferred tax liability is as follows:

	September 30, 2026	September 30, 2025
Balance at January 1,	6.648.024	6.503.671
Deferred tax expense / (income)	1.063.466	326.329
Tax expense recognized in comprehensive income	(764.861)	(1.264.960)
Currency translation adjustment	(734.488)	(328.993)
	6.212.141	**5.236.047**

22. EARNINGS / (LOSSES) PER SHARE

Basic earnings / (losses) per share is calculated by dividing net income / (loss) for the year by the weighted average number of ordinary shares outstanding during the related year. The Company has no diluted instruments. As of September 30, 2026, and 2025 earnings / (losses) per share is as follows:

	January 1 - September 30, 2026	**July 1 - September 30, 2026**	January 1 - September 30, 2025	July 1 - September 30, 2025
Equity holders net income/(loss) for the year	**22.455.312**	**7.786.064**	18.246.506	9.316.692
Weighted average number of ordinary shares	**279.807.860.200**	**279.807.860.200**	279.807.860.200	279.807.860.200
Equity Holders Earnings Per Share (Full TL)	**0,080253**	**0,027826**	0,065211	0,033297

23. RELATED PARTY BALANCES AND TRANSACTIONS

The Group has various transactions with related parties in normal course of the business. The most significant transactions with related parties are as follows:

	September 30, 2026				
	Sales to related parties and other revenues	**Purchases from related parties and other expenses**	**Receivables from related parties**	**Payables to related parties**	
				Short Term	**Long Term**

	9.700	**203.848**	**8.952**	**153.062**
Number of top executives	**4**	**9**	4	11

24. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Group's principal financial instruments are comprised of bank borrowings, bond issues, cash, and short-term deposits. The main purpose of these financial instruments is to raise financing for the Group's operations. The Group has various other financial instruments such as trade debtors and trade creditors, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, liquidity risk, foreign currency risk, and credit risk. The Group management reviews and agrees policies for managing each of these risks which are summarized below. The Group also monitors the market price risk arising from all financial instruments.

(a) Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratio in order to support its business and maximize shareholder value.

The Group manages its capital structure and adjusts it considering changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders or return capital to shareholders and may decide on issue of new shares or sell assets to decrease net financial debt.

As of September 30, 2026, and December 31, 2025, debt to equity ratio, obtained by dividing the total net debt, the financial borrowings and loan debts minus cash and cash equivalents and short-term financial assets, to share capital is as follows:

	September 30, 2026	December 31, 2025
Borrowings	**54.107.637**	64.793.403
Less: Cash and cash equivalents and short-term financial assets	**(40.654.375)**	(32.976.726)
Net debt	**13.453.262**	31.816.677
Total share capital	**2.798.079**	2.798.079
Net debt / Total equity ratio (%)	**4,81**	11,37

24. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (continued)

(b) Interest Rate Risk

The Group is exposed to interest rate risk through the impact of rate changes on interest bearing assets and liabilities. The Group manages interest rate risk by balancing the interest rate of assets and liabilities or derivative financial instruments.

Certain parts of the interest rates related to borrowings are based on market interest rates; therefore, the Group is exposed to interest rate fluctuations on domestic and international markets. The Group's exposure to market risk for changes in interest rates relates primarily to the Group's debt obligations.

As of September 30, 2026, if variable interest rate on the Group's borrowings would have been 100 basis points higher / lower with all other variables held constant, then profit / (loss) before tax and non-controlling interest for September 30, 2026, which is the following reporting period would be:

	September 30, 2026	September 30, 2025
Increase / decrease of 1% interest in U.S. Dollar denominated borrowing interest rate	**15.483**	19.797
Increase / decrease of 1% interest in Euro denominated borrowing interest rate	**4.888**	7.553
Increase / decrease of 1% interest in Pakistani Rupee denominated borrowing interest rate	**-**	206
Increase / decrease of 1% interest in Turkish Lira denominated borrowing interest rate	**7.479**	15.974
Total	**27.850**	43.530

As of September 30, 2026, and 2025, the analysis of financial assets of the Group exposed to interest risk as follows:

Interest Rate Risk	**September 30, 2026**	September 30, 2025
Financial instruments with fixed interest rate		
Time deposits	**25.872.739**	23.328.284
Financial liabilities (Note 7)	**40.658.999**	45.628.995
Financial instruments with floating interest rate		
Financial liabilities (Note 7)	**11.646.941**	17.402.089

(c) Foreign Currency Risk

The Group is exposed to exchange rate fluctuations due to the nature of its business. This risk occurs due to purchases, sales, demand / time deposits and bank borrowings of the Group, which are denominated in currencies other than the functional currency. The Group manages its foreign currency risk by balancing the amount of foreign currency denominated assets and liabilities and by using derivative financial instruments (Note 6).

	January 1 - September 30, 2026	**July 1 - September 30, 2026**	January 1 - September 30, 2025	July 1 - September 30, 2025
Total export	**3.709.798**	**966.804**	3.877.641	317.697
Total import	**44.316.683**	**13.752.975**	50.299.414	11.348.859

24. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (continued)

Foreign Currency Position

As of September 30, 2026, and December 31, 2025, the foreign currency position (except functional currency) of the Group and its subsidiaries is as follows:

Foreign Currency Position Table
September 30, 2026

	Total TL Equivalent	USD	Euro	Other Foreign Currency TL Equivalent
1. Trade Receivables and Due from Related Parties	79.255	1.593	24	-

TOTAL (3+6+9)	**(1.563.058)**	**1.563.058**	(1.475.140)	1.475.139

(d) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Group to significant concentration of credit risk consist principally of cash and cash equivalents and trade receivables. Maximum credit risk on the Group is limited to the amounts disclosed on the financial statements.

The Group maintains cash and cash equivalents with various financial institutions. It is the Group's policy to limit exposure to any one institution and revalue the credibility of the related financial institutions continuously.

The credit risk associated with trade receivables is partially limited due to a large customer base and due to management's limitation on the extension of credit to customers. The Group generally requires collateral to extend credit to its customers excluding its distributors.

24. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (continued)

(d) Credit Risk (continued)

Credit risk exposure from financial instruments as of September 30, 2026, and December 31, 2025 are as follows:

	Receivables			
September 30, 2026	**Trade Receivables and Due from Related Parties**	**Other Receivables**	**Advances Given**	**Bank Deposits**
Maximum credit risk exposure as of reporting date (A+B+C+D+E)	**33.226.043**	**431.826**	**3.777.660**	**40.612.681**

- Net value under guarantee	-	-	-	-
E. Off- balance sheet items having credit risk	-	-	-	-

24. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (continued)

(e) Liquidity Risk

Liquidity risk is the risk that an entity will be unable to meet its net funding requirements. The risk is mitigated by matching the cash in and out flow volume supported by committed lending limits from qualified credit institutions, bond issues, cash, and short-term deposits.

The maturity breakdown of financial assets and liabilities has been indicated by considering the period from the balance sheet date to maturity date. Those financial assets and liabilities which have no maturities have been classified under "1 to 5 years".

(f) Commodity Price Risk

The Group may be affected by the price volatility of certain commodities such as sugar, aluminum, and resin. As its operating activities require the ongoing purchase of these commodities, the Group's management has a risk management strategy regarding commodity price risk and its mitigation.

Based on a 12-month anticipated purchase of can, the Group hedges using commodity (aluminum) swap contracts (Note 6).

Based on a 15-month anticipated purchase of pet, the Group hedges using commodity (resin) swap contracts (Note 6).

Based on a 24-month anticipated production, the Group hedges using commodity (sugar) swap contracts (Note 6).

25. FINANCIAL INSTRUMENTS

Fair Values

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and best evidenced by a quoted market price, if one exists.

Foreign currency-denominated financial assets and liabilities are revalued at the exchange rates prevailing at the balance sheet dates.

The following methods and assumptions were used in the estimation of the fair value of the Group's financial instrument:

Financial Assets – The fair values of certain financial assets carried at cost, including cash and cash equivalents, and held to maturity investments plus the respective accrued interest are considered to approximate their respective carrying values due to their short-term nature and negligible credit losses. The carrying values of trade receivables along with the related allowances for bad debt are estimated to be at their fair values.

Financial Liabilities – The fair values of trade payables and other monetary liabilities are estimated to approximate carrying values, due to their short-term nature. The fair values of bank borrowings are considered to approximate their respective carrying values, since the initial rates applied to bank borrowings are updated periodically by the lender to reflect active market price quotations. The carrying values of trade payable are estimated to be their fair values due to their short-term nature.

25. FINANCIAL INSTRUMENTS (continued)

Fair value hierarchy table

The Group classifies the fair value measurement of each class of financial instruments according to the source, using the three-level hierarchy, as follows:

Level 1: Market price valuation techniques for the determined financial instruments traded in markets

Level 2: Other valuation techniques includes direct or indirect observable inputs

Level 3: Valuation techniques does not contain observable market inputs

September 30, 2026	**Level 1**	**Level 2**	**Level 3**
a) Assets presented at fair value			
Derivative financial instruments	**-**	**342.664**	**-**
Total assets	**-**	**342.664**	**-**
b) Liabilities presented at fair value			
Derivative financial instruments	**-**	**411.656**	**-**
Put option of share from non-controlling interest	**-**	**-**	**115.475**
Total liabilities	**-**	**411.656**	**115.475**

December 31, 2025	**Level 1**	**Level 2**	**Level 3**
a) Assets presented at fair value			
Derivative financial instruments	-	261.299	-
Total assets	-	261.299	-
b) Liabilities presented at fair value			
Derivative financial instruments	-	244.448	-
Put option of share from non-controlling interest	-	-	125.607
Total liabilities	-	244.448	125.607

As of September 30, 2026, and 2025, the movement of share purchase option below level 3 is as follows;

	September 30, 2026	September 30, 2025
Balance at January 1st	**125.607**	135.484
Currency translation difference	**(10.132)**	(8.404)
	115.475	127.080

26. NET MONETARY POSITION GAIN/(LOSS)
